Experienced Team Lead and Senior Engineer with over **12 years extensive experience** in developing and deploying innovative **digital solutions**. Proficient in a wide range of programming languages, frameworks, and tools, with a strong focus on creating **performant and scalable applications**. Adept at collaborating with cross-functional teams to translate user requirements into robust front-end solutions.

## Relevant Experience

### Senior Software Engineer @ Care.com

August 2022 – Present // Berlin, Germany

- ▶ Led a high-performing team in spearheading enhancements in the micro frontend using **Next.js**, resulting in a significant **12%** increase in enrollment rates. Additionally, orchestrated the engineering of backend APIs in **JAVA** Spring to ensure consistent user experience across multiple platforms.
- ▶ Revamped the review module utilizing **Next.js** and **Golang microservices**, resulting in heightened review generation and feedback, thereby enhancing overall user engagement and satisfaction.
- ▶ Optimized **JSP** pages to ensure seamless user identification, resulting in a smoother user experience
- ▶ Elevated user interaction by refining the main home page's user experience, resulting in increased engagement.

### Senior Consultant @ Deloitte

Feb 2020 – July 2022 // Bengaluru India

- ▶ Write modern, performant, and robust code for a diverse array of client and internal projects
- ▶ Work with a variety of different languages and frameworks such as **JavaScript, TypeScript, React, Node.js, NestJs** etc.
- ▶ Communicate and collaborate with multi-disciplinary teams of engineers, managers, clients, and stakeholders on a daily basis
- ▶ Developed, Tested and deployed dashboard application that displays the sales, pricing and prediction data in real time. **Optimized and scaled the application** to handle the big data.
- ▶ Created a chat-bot UI for the internal website that dynamically serves response for the users.

### Assistant Manager @ Tata Consultancy Services

Nov 2016 – Jan 2020 // Ahmedabad India & Singapore, SG

- ▶ Developed and deployed the application which digitalized the Changi Airport workplace. Created the application using the **Outsystems**. Collaborated with multiple stakeholders to accurately translate user and business needs into functional front-end code
- ▶ Created a web-based content management system that is used to create Online courses for the employees of the firm. Implemented the business logic, modules and **cross-browser compatibility** using **React**.

### Senior Software Engineer @ Gateway Technolabs

April 2015 – Oct 2016 // Ahmedabad, India

- ▶ Developed a Survey Software that captures and transforms paper-based system into smart digital checklists. Created web-based application using **Angular** and mobile application using **PhongGap**.
- ▶ Developed custom modules for the application and **Cordova** plugins for the mobile application
- ▶ Implemented UI development principles to ensure that the product client-side serves at scale.

### Engineer @ Brillio

Jun 2013 – March 2015 // Bengaluru, India

- ▶ Developed a sales mobile application that helps salesman and executives with their invoices and lead generation
- ▶ Developed and designed the UI using **Sencha Touch, DOJO**. Created Mobile Application using **PhoneGap**

## Skills

### Programming Languages

### Databases

MongoDB, MySQL, PostgreSQL, Amazon DynamoDB, RedShift

### Tools & Platforms

Git, Gulp, Webpack, Docker, Firebase, AWS, Kubernetes, Jenkins

## Education

### Anna University

2008 – 2012 // Chennai, IND  
Bachelor of Engineering  
Electronics and Communication

### Courses & Certifications

Winter 2021 // Bengaluru, IND  
German Level A1- Goethe Institute

## Projects

### Weather Application

Web app built with React for displaying weather and temperatures across all cities in the world.

### Custom Component Library

Custom components for usage across the various libraries and frameworks such as React, Vue and Angular

## Interests

Basketball, Competitive Programming, Cooking and Travelling
